Financial Presentation Disclosure

This release refers to “reported” (R$) and “constant dollar” (C$) or “constant currency” amounts, terms that are described under the heading below “Constant Currency - Excluding the Impact of Foreign Currency.” Unless otherwise noted, “reported” and “constant dollar” or “constant currency” amounts are the same, and amounts will be as “reported” unless otherwise specified. This release also refers to results “excluding *Dickies*®”, which is described under the heading “Dickies Divestiture”. This release also refers to “adjusted” amounts, a term that is described under the heading “Adjusted Amounts". Unless otherwise noted, “reported” and “adjusted” amounts are the same. VF operates and reports using a 52/53 week fiscal year ending on the Saturday closest to March 31 of each year. Fiscal 2027 contains 53 weeks, with an additional week occurring in the fourth quarter. VF defines “**free cash flow**” as cash flow from operations less capital expenditures and software purchases, defines “**net debt**” as long-term debt, the current portion of long-term debt, short-term borrowings, and operating lease liabilities, less cash and cash equivalents per VF's consolidated balance sheet and defines “**leverage**” as net debt to adjusted earnings before interest, taxes, depreciation and amortization (“EBITDA”), which excludes operating lease cost.

Dickies Divestiture

On September 15, 2025, VF entered into a definitive agreement with Bluestar Alliance LLC to sell the *Dickies*® brand business (“Dickies”) and on November 12, 2025, VF completed the sale of Dickies. The Dickies sale did not qualify for discontinued operations presentation under U.S. generally accepted accounting principles (“GAAP”) and "reported" amounts include Dickies results in continuing operations through the date of sale. References to results “excluding *Dickies*®” exclude the results of Dickies in the prior year period. VF believes this non-GAAP presentation provides investors with useful information regarding VF’s current business trends and performance of VF’s operations, post the closing of the sale of Dickies.

Constant Currency - Excluding the Impact of Foreign Currency

This release refers to “reported” amounts in accordance with GAAP, which include translation and transactional impacts from foreign currency exchange rates. This release also refers to both “constant dollar” and “constant currency” amounts, which exclude the impact of translating foreign currencies into U.S. dollars.

Adjusted Amounts

The company does not provide a reconciliation of forward-looking measures where the company believes such a reconciliation would imply a degree of precision and certainty that could be confusing to investors and is unable to reasonably predict certain items contained in the GAAP measures without unreasonable efforts. This is due to the inherent difficulty of forecasting the timing or amount of various items that have not yet occurred and are out of the company's control or cannot be reasonably predicted. For the same reasons, the company is unable to address the probable significance of the unavailable information.
