DENVER--(BUSINESS WIRE)--October 25, 2019--VF Corporation (NYSE: VFC) today reported financial results for its second quarter ended September 28, 2019. All per share amounts are presented on a diluted basis. This release refers to "reported" and "constant dollar" amounts, terms that are described under the heading "Constant Currency - Excluding the Impact of Foreign Currency." Unless otherwise noted, "reported" and "constant dollar" amounts are the same. This release also refers to "continuing" and "discontinued" operations amounts, which are concepts described under the heading "Discontinued Operations - Kontoor Brands Business." Unless otherwise noted, results presented are based on continuing operations. This release also refers to "adjusted" amounts, a term that is described under the heading "Adjusted Amounts - Excluding *Icebreaker*[®], *Altra*[®] and Jeans Spin-Off Transaction and Deal Related Expenses, Costs Related to Office Relocations and Specified Strategic Business Decisions, and the Impact of Swiss Tax Legislation." Unless otherwise noted, "reported" and "adjusted" amounts are the same.

"We're pleased with the strength of our second quarter and first half results, driven by our two largest brands and our international and direct-to-consumer platforms," said Steve Rendle, Chairman, President and Chief Executive Officer. "The quality and fundamentals of our business remain solid as a result of the focus and strategic execution of our business teams around the globe. Despite an increasingly uncertain geopolitical and macroeconomic environment, we are confident in the trajectory of our business as we move into the second half of our fiscal year, as reaffirmed by our outlook. We remain deeply committed to transforming VF into a more consumer-minded and retail-centric organization while delivering superior returns to shareholders."

Constant Currency - Excluding the Impact of Foreign Currency

This release refers to “reported” amounts in accordance with U.S. generally accepted accounting principles (“GAAP”), which include translation and transactional impacts from foreign currency exchange rates. This release also refers to “constant dollar” amounts, which exclude the impact of translating foreign currencies into U.S. dollars. The “constant dollar” amounts also exclude the impact of foreign currency-denominated transactions in countries with highly inflationary economies. Reconciliations of GAAP measures to constant currency amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management’s view of why this information is useful to investors.

Discontinued Operations - Kontoor Brands Business

On May 22, 2019, VF completed the spin-off of its Jeans business, which included the *Wrangler*[®], *Lee*[®] and *Rock & Republic*[®] brands, as well as the *VF Outlet*[™] business, into an independent, publicly traded company under the name Kontoor Brands, Inc. (“Kontoor Brands”). Accordingly, the company has removed the assets and liabilities of the Jeans business as of this date and included the operating results and cash flows of the business in discontinued operations for all periods presented.

Adjusted Amounts - Excluding Icebreaker[®], Altra[®] and Jeans Spin-Off Transaction and Deal Related Expenses, Costs Related to Office Relocations and Specified Strategic Business Decisions, and the Impact of Swiss Tax Legislation

This release refers to adjusted amounts that exclude transaction and deal related expenses associated with the acquisitions and integration of the *Icebreaker*[®] and *Altra*[®] brands. The release also refers to transaction expenses associated with the completed spin-off of the Jeans business. Total transaction and deal related expenses were approximately \$9 million in the second quarter of fiscal 2020 and \$22 million in the first six months of fiscal 2020.

This release also refers to adjusted amounts that exclude costs primarily associated with the previously announced relocation of VF’s global headquarters and certain brands to Denver, Colorado. The release also refers to costs related to strategic business decisions in South America and the operating results of jeanswear wind-down activities in South America following the spin-off of Kontoor Brands. Total costs were approximately \$18 million in the second quarter of fiscal 2020 and \$35 million in the first six months of fiscal 2020.

Adjusted amounts in this release also exclude the impact of recent Swiss tax legislation. On May 19, 2019, Switzerland voted to approve the Federal Act on Tax Reform and AHV Financing (“Swiss Tax Act”). Certain provisions of the Swiss Tax Act were enacted during the second quarter of fiscal 2020, which resulted in adjustments to deferred tax positions of approximately \$164 million for the second quarter and first six months of fiscal 2020. It is expected that additional provisions may be enacted in subsequent periods, resulting in further adjustments.

Combined, the above items positively impacted earnings per share by \$0.36 during the second quarter of fiscal 2020 and \$0.30 during the first six months of fiscal 2020. All adjusted amounts referenced herein exclude the effects of these amounts.

Reconciliations of measures calculated in accordance with GAAP to adjusted amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management’s view of why this information is useful to investors.

Constant Currency Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present constant currency financial information, which is a non-GAAP financial measure that excludes the impact of translating foreign currencies into U.S. dollars. The constant currency financial information also excludes the impact of foreign currency-denominated transactions in countries with highly inflationary economies. We use constant currency information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation, and measuring foreign currency transactions in highly inflationary economies. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a constant currency basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period). Similarly, foreign currency transactions in highly inflationary economies, on a constant currency basis, are calculated using exchange rates from the comparable period of the prior year.

These constant currency performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The constant currency information presented may not be comparable to similarly titled measures reported by other companies.
